About This Content

Perfect for a cloudy and rainy afternoon, Face It - The Original Game REDUX is a **short and (bitter)sweet** one level game about finding inner **PEACE** in a world surrounded by fear, pain and depression.
Featuring an experimental level with **minimalistic graphics**, this DLC is an improved version of the first attempt to create **FACE IT**, made in 2014 during the Global Game Jam, following the theme "We don't see things as they are, we see things as we are."
