This is definitely an epoch-making VR game, which is the Arizona sunshine of the Three Kingdoms edition. I like it very much, I hope you do not give up!. played only for the trading cards ;). Best Game i Ever Played, (I'm Sad Because i have to Play it on the Worst Graphics,Otherwise My Computer Don't Have Enough RAM to Play it ;-:). I like playing these puzzle games because they bring back memories of doing puzzles with my uncle, so I'm always going to gravitate towards them, and enjoy them. Having said that, I haven't played Radical Roach, and the pictures in here were obviously al relevant to that game, which is fine. The issue I had was that the puzzles were generally pretty dark, and then all of the backgrounds were dark, so it was difficult seeing where certain puzzles had to go because, even while circling through the colors, the backgrounds were too dark to see the puzzle easily. Other than that, the puzzles were fine, the pictures were kind of cool, and it's an easy 100% game. I'd recommend buying it on sale, though, or getting it in a bundle.. A wonderful and unique RPG that made every hour i've put into it a pleasant experience. A 9/10 from me because some aspects of the game aren't as deep as some of the other RPG's I've played. But still, this game was really worth the money.

If you want death to come and visit you, then this game is right for you.. If all you want to do is play a fun action RPG that gives you a lot of freedom you will likely enjoy this game. There's plenty to customize, infinite dungeons, enough classes and weapons to experiment with. Combat is fun, enemy variation keeps you on your toes. Unfortunately, there are some story and cutscene elements sprinkled in, but nothing you can't just skip over. You'll probably feel a little overwhelmed with the menu systems at first, just keep playing and it'll make sense.

Spend hours learning how to pixel art so you can make a qt 8bit wife and grind with. Good game, worth \$10 and absolutely worth if it's on sale.. Love playing this game with my daughter, nice humorous puzzle platformer game with interesting concept and cute characters with some rude behavior :P

My daughter will sit for hours playing the game solving the puzzles and laughing at the cut scenes, good clean fun :D. Wait this isn't minecraft. A bit too glitchy.

I wanted to love this game so bad because the overall vibe is beautiful and the exploration mechanic feels really nice... when it's working properly.

I got stuck in-between so much terrain and it wouldn't allow me spawn platforms in areas wherein there are no visible objects obstructing it from forming.

Really cool looking game. Unfortunately the bugs are too frustrating to deal with, thus I cannot recommend.
